GRAPH BOT

VOICE CONTROL

ROBOT TOY

DIFFERENT COLOURS

CREATE your own **DRAWINGS** with a robot

Main Purpose

The main goal of the graphbot is to introduce girls to technology from an early age. This could inspire them to get into technology and later study in a STEM-field. Besides that the robot should be a creative tool to express yourself. Both girls and boys could use the graphbot. People who are limited in their movement could also use our graphbot to create art.
Control

The Graphbot can change the drawing colour automatically

Clean

The robot will not draw past the paper due to the build-in IR-sensor

Commands

The robot understands the following commands: Go, Back, Left, Right, Stop and Change

Customization

You can order the robot in different colours and customize it further with stickers.
